Our products have covered: Residential, commercial & industrial, on/off-grid, micro-grid energy storage and energy management system, EV chargers, battery cell, PV solar panels.

ADAYO distributed ESS 215KWh is based on an All-in-one design theory, highly integrating LFP battery, BMS, PCS, EMS, power distribution system, temperature control system, and fire protection system.

VERYPOWER Built-in PCS And Inverter 100kW/104kWh LiFePO4 Battery Cabinet Energy Storage Cabinet,100KW/101KWH,Battery Storage System (Industrial& Commercial use),100KW/101KWH

Anern liquid cooling energy storage system cabinet is an energy storage device based on 100kw lithium battery. C& I energy storage system. High energy density, high charging and discharging power, long ...

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

Application areas: It can be applied to load peak shaving, peak-valley arbitrage, backup power supply, peak load regulation, frequency regulation and microgrids. The system has two operating modes: ...

This industrial and commercial battery storage system is the ideal compact solution for your battery projects to work alongside solar PV, EV chargers and back up power requirements.

We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services.
