The 120 kW automatic switching cabinet integrates STS-based control, protection, and monitoring functions to enable safe and automatic grid-connected and off-grid operation works with energy ...

We provide multiple power options, from standard to fast charging, and all our products are rigorously tested to meet international safety and performance standards.

This isn't just a battery; it's a fully integrated power fortress, combining a massive 120kWh LiFePO4 battery bank, a powerful 50kW inverter, and a sophisticated thermal management system within a ...

Pilot's PL-EL Series solves that problem at the cabinet--combining a high-efficiency energy storage system (208.9 kWh) with a DC fast charger up to 120 kW output and optional AC 60 ...

This system provides a 120kW sustained power output and a battery capacity of up to 225kWh, easily meeting the demands of most high-load applications like factories, commercial buildings, or large ...

Powerful Integrated Solution: Combines 215kWh of high-voltage battery capacity with a matched 120kW PCS for high-performance C& I storage. High-Efficiency Conversion: System efficiency exceeds 90% ...

Flexible and on-demand configuration of functional components for different business scenarios, including energy storage management, photovoltaic management, charging station management, etc.

Looking to deploy an enterprise-grade ESS cabinet for commercial facilities, factories, EV charging, microgrids, or industrial parks? Wenergy provides fully integrated, outdoor-rated ESS cabinets using ...
