Industry-leading high energy density that ensures more power is stored in less space. Unlocks the potential of renewable energy applications with compact, powerful solution, designed for optimal ...

The MEGATRONS 373kWh Battery Energy Storage Solution is an ideal solution for medium to large scale energy storage projects. Utilizing Tier 1 LFP battery cells, each battery cabinet is designed for ...

Support max. 4 cabinets in parallel, friendly for medium-sized project integrators.

Discover the latest lithium-ion cabinet design, featuring advanced safety measures like fireproof battery storage, perfect for residential and commercial energy storage applications.

Save space, flexible placement: Supports back-to-back installation, side output, and does not require pre-installed cable ducts/cable racks for battery cabinet installation, saving on site costs.

The FPR-ESS-5015kWh-L-1500V is perfect for large-scale applications, including grid stabilization, renewable energy integration, and industrial power management.

Founded in 2009, SineSunEnergy has been focusing on lithium battery energy storage product development and application, providing leading lithium battery energy storage system integrated ...

Air-cooled prefabricated cabin energy storage battery system is a large-capacity battery energy storage device with standardized design and flexible configuration. This product integrates energy storage ...
