The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks.

It covers multiple battery voltage levels for passenger vehicles ...

It covers multiple battery voltage levels for passenger vehicles (100V~750Vdc), offering a wide range of adaptability. Wide range of grid voltage and adaptive capability for 50/60Hz voltage frequency.

Offering rapid battery swaps, robust power management, and compatibility with various electric vehicles, these advanced battery swap systems feature IP55-rated protection, intelligent BMS with multiple ...

Enhance your home's energy independence with our battery swapping cabinet. Ideal for homeowners looking to store solar energy for use during peak times or power outages.

This multifunctional cabinet provides 6 different operational modes. It will easily integrate into your power conversion system or serve as a foundation on a newly designed one.

The BSLBATT 200kWh Battery Cabinet utilizes a design that separates the battery pack from the electrical unit, increasing the safety of the cabinet for energy storage batteries.

BSLBATT ESS-GRID Cabinet Series is an industrial and commercial energy storage system available in capacities of 200kWh, 215kWh, 225kWh, and 245kWh. It offers peak shaving, energy backup, ...
