-----

This SmartRack Modular Data Center is composed of IT rack and cooling enclosures that form a performance optimized data center (POD). This solution reduces deployment time, lowers cost and ...

The innovative design enables easy configuration and maintenance while reducing the overall cycle time to deploy a data center from months or weeks to just days.

Featuring three 44U IT racks and two high-efficiency 25 kW in-row cooling units, this configuration supports 132U of rack-mounted equipment within a closed-loop environment. The additional service ...

Buy a Eaton SmartRack Pre-Configured, Self-Cooling Modular Data Center - 2x 44U Racks, 25 kW AC Unit or other UPS Battery Backups at CDW

This SmartRack's Modular Data Center is composed of IT rack, cooling and service enclosures that form a performance optimized data center (POD). This solution reduces deployment time, lowers cost and ...

This SmartRack's Modular Data Center is composed of IT rack and cooling enclosures that form a performance optimized data center (POD). This solution reduces deployment time, lowers cost and ...

Deploy fast with the Eaton SRP-R-C25 Modular Data Center. Includes 44U rack, 25kW cooling unit, and remote monitoring. Ideal for edge and AI environments.

As rack power densities continue to rise--especially with the proliferation of AI and machine learning--it's crucial to adopt a data-driven, scalable approach to data center design.
