What is rack space rental (server colocation)?

Rack space rental, also known as server colocation, is the provisioning of a client's servers/computer equipment in a colocation provider's data center.

What is rack rental hosting?

Rack Rental Hosting is a service that provides customers with dedicated space within a data center to house their own servers and IT equipment. The rented rack is exclusively for the client's use, offering a secure, controlled environment with reliable power, cooling, and high-speed connectivity.

Why should you rent a server rack?

Renting a server rack lets you benefit from our deep data center expertise and resources -- 24/7 technical support, remote hands and monitoring services. Climate control systems maintain the right environment for the operation of IT equipment. Tell us what you need -- our experts are ready to find a custom solution!

What is rack rental hosting & cabinet colocation?

Rack Rental Hosting and Cabinet Colocation are two highly effective solutions for businesses and individuals looking to host their IT equipment in a secure, reliable, and professional environment. Rent a full or partial rack that is dedicated to your equipment only, ensuring no shared space or interference from other clients.
