As a professional manufacturer in China, produces both energy storage cabinets and battery cell in-house, ensuring full quality control across the entire production process.

The 350kWh All-in-one C& I Energy Storage Cabinet features a highly integrated design with built-in BMS, EMS, and PCS. Supporting off-grid and grid use, it cuts energy costs, boosts efficiency, and ...

Integrated cabinet design, easy to deploy and install. Support 1P discharging to meet the power demand of high-power impact loads. Fully liquid-cooled design, suitable for harsh environmental scenarios.

Wenergy's energy storage cabinets help businesses cut costs, enhance efficiency, and ensure reliable power. Scalable and high-performance, they integrate with existing infrastructure for peak shaving, ...

Foldable Photovoltaic Power Generation Cabin is a containerised solar power solution. Combining the features of solar power generation and mobility, it provides electricity all over the world.

Turnkey industrial energy storage solutions integrating BESS, solar PV and waste heat power to help cement plants and heavy industry reduce energy cost and ensure stable production.

All-in-one, high-performance energy storage system for various industrial and commercial applications. Highly suitable for all kinds of outdoor applications such as EV charging stations, industrial parks, ...

The EK photovoltaic micro-station energy storage cabinet has redefined the power supply mode of distributed energy scenarios with its core advantages of "intelligent integration, multi-energy ...
