Does Puerto Rico have a resilient energy system?

"That kind of shifted, in people's minds, the thinking on energy and the value of resiliency, and the importance of just basic energy," Rúa-Jovet said. The Puerto Rico Energy Public Policy Act of 2019 codified the role of solar and storage in the island's energy system and set a 100% renewable energy target by 2050, with interim targets on the way.

What happens during a power outage in Puerto Rico?

People in the line wait food on a dark street during a major power outage on December 31, 2024 in San Juan, Puerto Rico. Blackouts have become so routine that many households are investing in solar and storage, which can then be deployed to the grid. Miguel J. Rodriguez Carrillo via Getty Images

What is the first virtual power plant in Puerto Rico?

What started as a modest pilot program is now the first virtual power plant of its kind in the region, advocates say. People in the line wait food on a dark street during a major power outage on December 31, 2024 in San Juan, Puerto Rico.

Sol Stack Battery is the manufacturer of the best lithium battery storage systems available in Puerto Rico, with a warranty up to 10 years.

Cumulative battery energy storage capacity reached 90GW in 2023, led primarily by China, US, and Europe, an increase from 48.8GW in 2022. This week, we also spotlight the ...

Project Summary: Assist in the recovery and modernization of Puerto Rico's electric grid by constructing utility-scale energy storage systems to increase resiliency, thereby promoting public interest and ...

Nearly every night for the past two weeks, Puerto Rico's grid operator has called on tens of thousands of batteries scattered across the island to overcome energy shortfalls and help deliver...

In response to a solid installed base of MLPE, and the introduction of an improved storage solution in Puerto Rico, Tigo is enhancing regional installer training and support for the island.

Project Marahu will provide clean energy, lower generation costs, and enhance grid reliability for Puerto Rico through solar photovoltaic farms and battery energy storage systems.
