-----

Versatile configuration: use 30kW/80kWh as a basic build block to build up a larger system. Application: Commercial and industrial facility power back up such as office building, warehouse, company data ...

Currently our best-selling products are lithium batteries 12V, 24V 50-400AH which can directly replace lead-acid batteries, and rack-mounted batteries 48V 100AH. We have strong ...

With extensive experience and innovative technology, this home battery delivers reliable backup power during emergencies. It features a modern design, high energy, and power density, a long lifespan, ...

Available in 64 kWh, 80 kWh, and 96 kWh versions, this system combines performance, safety, and easy installation for your photovoltaic and energy management projects.

Cabinet 409v 81.92kwh lithium iron phosphate battery solar energy storage system is designed for residential and commercial use, providing efficient energy storage for solar power.

Comprising eight sets of battery units, each harboring a formidable 10.75 kWh energy capacity, the ESS culminates in an impressive total storage capability of 80 kWh.

Durable and Reliable Design: With an IP54 protection class and air cooling system, the MicroGrid 80kwh 120kwh Lithium Lifepo4 Battery is designed to withstand harsh environments and ensure reliable ...

40kWh, 50kW, 80kWh, and 120kW BESS Rack Lithium-Ion Batteries Elevate your renewable energy solutions with these advanced, efficient, and robust energy storage systems that are perfect for ...
