Argentina's first energy storage tender drew 1.347 GW of bids from 15 companies proposing 27 projects, exceeding the 500 MW target and representing more than \$1 billion in pledged...

Argentina's first energy storage tender has lured proposals for 1,347 MW of combined capacity, indicating a high investor interest that significantly exceeded the 500-MW target.

Argentina's battery energy storage systems tender receives 1.3 GW in bids--more than double its target--highlighting growing demand for grid resilience solutions.

In a strong show of interest, 15 companies submitted 27 different project proposals. These represent a combined investment commitment of over \$1 billion and a total of 1,347 MW of power, ...

Argentina has received more than 1.3GW of energy storage applications for its first battery energy storage system (BESS) tender.

The first large-scale battery energy storage tender in Argentina is catching the attention of the international community as an unequivocal step towards modernizing power infrastructure.

You know how people say Argentina's got all that lithium but still struggles with blackouts? Well, here's the kicker: the country's racing to deploy 500MW of energy storage by 2025 while modernizing a grid ...

PVTIME - Argentina is set to open its landmark 1GW solar panel manufacturing plant, which is operated by the provincial energy firm Empresa Provincial Societaria del Estado (EPSE).
