Australian Flow Batteries (AFB) presents a sustainable and scalable solution to reduce diesel dependency for remote operations, disaster recovery, industrial applications and defence.

Australian Flow Batteries (AFB) is transforming energy storage in Australia with advanced flow battery technology, delivering reliable, sustainable, and scalable power solutions.

Allegro Energy manufactures water-based redox flow batteries and supercapacitors that it said are "non-flammable, fully recyclable, and have no reliance on scarce materials or complex ...

While China has built the world's largest vanadium flow battery (175MW, 700MWh), Australia is positioning itself as a leader in the industry. If government support continues, we could ...

Australian Flow Batteries (AFB), established in 2022 and based in Bibra Lake, Western Australia, is a clean energy technology company focused on providing energy storage solutions.

Our global locations and partnerships enable us to deliver energy storage solutions in your part of the world. C& D locations can be found in North America, Asia, Oceania, and Europe. Explore our ...

Thorion Energy is Australia's first Vanadium Redox Flow Battery manufacturer, using exclusive chloride-based electrolyte technology.

Discover clean, reliable power with Australian Flow Batteries. Fast to deploy, modular, and sustainable, our systems replace diesel for remote communities, mines, ports, and emergency zones.
