Back in the 1980s, there were huge private wind measurements and experiments with smaller plants. In 1994, initiated by Councilor Waltner, 110 kilowatt (kW) wind turbine was set up in St. Pölten. Another wind turbine was put into operation six months later in Zistersdorf. In 1995, the first wind turbine was built with civic participation in Michelbach. In January 1996, the first turbine of the type E-40 with 500 kW was placed in Eberschwang. Not only th...
