Why is DTEK launching a battery storage facility in Ukraine?

Our Standards: The Thomson Reuters Trust Principles. Ukrainian private energy firm DTEK has launched the country's largest battery storage facility to ensure stable power supplies in the face of Russian attacks on Ukraine's energy sector, the company said on Thursday.

Is DTEK a state-owned energy company in Ukraine?

Unlike other state-owned energy companies in Ukraine, DTEK hasn't been able to secure funding from the European Bank for Reconstruction and Development (EBRD). Cooperation with Ukrainian banks strengthens Ukraine's energy security and potential, the company said.

How much did DTEK invest in a battery storage system?

Sign up here. DTEK said its total investment in the project amounted to 125 million euros (\$146.13 million). Six battery storage systems have been connected to the power grid in the capital Kyiv and Dnipropetrovsk regions in eastern Ukraine, it said.

Does DTEK invest in Ukraine?

DTEK has continued to invest in energy projects in Ukraine, most notably committing 450 million euros (\$468 million) to expand the Tyligulska Wind Power Plant near the Black Sea coast in cooperation with Denmark's state-owned Export and Investment Fund. It marked the largest ever private investment in Ukraine's energy sector.

The research project will take a holistic approach to the entire battery development process, from material discovery to the deployment of next-generation batteries, and has tasked itself ...

In addition to chemistry innovations, there is substantial R& D aimed at improving battery management systems (BMS). Advanced BMS can optimize charging and discharging cycles, extend ...

LLC ADS is the leading company on the Ukrainian market in the development and production of traction batteries for transport vehicles, starting batteries for locomotives, batteries for mining industries, ...

The roadmap suggests research actions to radically transform the way we discover, develop, and design ultra-high-performance, durable, safe, sustainable, and affordable batteries for use in real applications.

DTEK secures a \$72M loan to build one of Eastern Europe's largest battery storage facilities, boosting Ukraine's energy resilience and independence.

Read the latest research on everything from new longer life batteries and batteries with viruses to a nano-size battery.

Ukraine's largest private energy company DTEK secured a \$72-million loan to build one of the largest battery energy storage complexes in Eastern Europe, the company said on June 3.

"We are steadily advancing toward establishing a complete lithium-ion battery production chain in Ukraine--from raw material extraction to manufacturing power cells. Our current laboratory ...
