Imagine a city where solar panels work 24/7 - even when the sun isn't shining. The Berlin Energy Storage Photovoltaic Power Station Collection Project turns this vision into reality.

Owner-occupied residential properties can apply for EUR500 towards the cost of plug-in balcony power plants as part of Berlin's drive to be climate-friendly. Berlin has announced it is ...

The city of Berlin has launched a generous subsidy to encourage people to adopt solar, offering up to EUR500 for a single plug-and-go panel. Almost 10,000 people have applied for the funding ...

Compared to solar thermal energy, there are far more photovoltaic systems registered in Berlin. As of July 7, 2023, 20,985 systems were in place, with a total installed capacity of around 230 MWp.

Balkonkraftwerk is a balcony solar system that allows renters to contribute to the country's clean energy goals without owning a home. The technology has rapidly gained popularity, ...

Last February, the city wasted 18% of wind-generated power during a storm surge - energy that could've powered 12,000 homes for a day. That's where energy storage battery container rental ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal operating ...

Harnessing 23 kW of available daylight (despite 70% cloud cover from the storm, per EU Solar Energy Observatory), the rooftop solar array collaborated with the pre-charged 150kWh Bakery-BESS ...
