How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

What are all-inclusive solar kits?

These all-inclusive solar kits are designed for simplicity, featuring everything you need for a seamless setup and installation. With high-performance lithium battery options and versatile connectivity options, our solar power systems can be connected to solar, wind, backup generator, or utility grid sources.

Can a solar power system be connected to a generator?

With high-performance lithium battery options and versatile connectivity options, our solar power systems can be connected to solar, wind, backup generator, or utility grid sources. Say goodbye to complicated setups and enjoy the convenience of our complete solar power systems. Embrace energy independence effortlessly and power your life with ease.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Maximize clean energy with our Mega 800 Watt Solar Kit - perfect for your home needs!

Power your cabin, RV, or tiny home with the Mars 800W Off Grid Solar Kit. Includes 2048Wh battery + 2400W AC output. High efficiency, easy install. Shop Solaris today.

Nature Power's 800 Watt High Performance Solar Kit was developed to create and generate your own electricity off the grid.

Shop our selection of complete solar kits and bundles for off-grid, hybrid, grid-tie, and mobile solar systems. Choose from top brands like EG4 Systems, Victron Systems, and Schneider Systems.
