Who is CGN new energy?

CGN New Energy is committed to the investment, construction, O& M and technology research and development of solar power plants, with its solar power business spread into 26 provinces, autonomous regions and municipalities directly under the Central Government in China, and the installed capacity ranking No. 3 in China.

What will CGN new energy do in the next 3-5 years?

In the next 3-5 years, CGN New Energy will manage the production, O& M and engineering construction of hydropower assets of 1,252.30 MW under the trusteeship of Cinda. By the end of 2018, the consolidated installed capacity of CGN New Energy consisted of the attributable installed capacity of 12,576 MW and the holding installed capacity of 517 MW.

Where is CGN new energy distributed?

The projects of CGN New Energy are distributed in Henan, Jiangsu, Shanghai, Hubei, Gansu, Hunan and other regions. The existing comprehensive energy asset management of CGN New Energy has achieved win-win cooperation between CGN New Energy and its users.

What is the consolidated installed capacity of CGN new energy?

By the end of 2018, the consolidated installed capacity of CGN New Energy consisted of the attributable installed capacity of 12,576 MW and the holding installed capacity of 517 MW. The projects of CGN New Energy are distributed in Henan, Jiangsu, Shanghai, Hubei, Gansu, Hunan and other regions.
