What is a cabinet in politics?

Accessed 24 January 2026. A cabinet, in political systems, is a body of advisers to a head of state who also serve as the heads of government departments. The cabinet has become an important element of government wherever legislative powers have been vested in a parliament, but its form differs markedly in various countries.

What does a cabinet do?

In both presidential and parliamentary systems, cabinet officials administer executive branches, government agencies, or departments. Cabinets are also important originators for legislation. Cabinets and ministers are usually in charge of the preparation of proposed legislation in the ministries before it is passed to the parliament.

Which countries have a cabinet system of government?

The cabinet has become an important element of government wherever legislative powers have been vested in a parliament, but its form differs markedly in various countries, the two most striking examples being the United Kingdom and the United States. The cabinet system of government originated in Great Britain.

What is the Westminster cabinet system?

The Westminster cabinet system is the foundation of cabinets as they are known at the federal and provincial (or state) jurisdictions of Australia, Canada, India, Pakistan, South Africa, and other Commonwealth countries whose parliamentary model is closely based on that of the United Kingdom.
