Where are Yingli solar panels manufactured?

Yingli Solar, headquartered in China, manufactures its solar panels using advanced technology. The company sells its solar panels in New Zealand via distributors and has won many awards for its panels. Yingli Solar produces and supplies the following solar modules:

What is the production capacity of Yingli solar panels?

As of September 2008, Yingli is one of the largest manufacturers of PV products in China with an annual production capacity of 400 megawatts for polysilicon ingots and wafers, 400 megawatts for PV cells, and 400 megawatts for PV modules. Yingli Solar Panel Features:

How much do Yingli solar panels cost?

Yingli's solar panels will cost you anywhere between \$2.50 and \$3.10 per watt. For reference, an average 7kW solar system can cost you about \$21,000 before the federal tax credit. You can expect Yingli Solar panels to be slightly below the average because they are known as a less expensive brand.

How many Watts Does a Yingli solar panel produce?

It's important to note that the wattage amount is how much power output solar panels can produce under perfect conditions. Yingli Solar has modules that range from 315 - 450 watt solar panels, which is a solid range to choose from. Either one of Yingli's residential solar panels will provide enough power to keep your home's electricity running.
