Singapore-based ERA and China's CREI, a subsidiary of the state-owned China National Nuclear Corporation, signed a framework agreement to jointly invest in and develop a 900 ...

Located on the Saguling Reservoir in Bandung, West Java Province, the project utilizes floating photovoltaic technology, with solar panels installed on floating structures on the water surface.

The facility, developed in partnership with PLN and Masdar, is the region's largest floating solar power plant and began supplying power to the grid in November 2023.

Chinese company Power Construction Corporation of China (PowerChina) has completed the Cirata floating photovoltaic power plant in Indonesia, marking the commissioning of the largest facility of its ...

The CIRATA FLOATING SOLAR PHOTOVOLTAIC POWER PLANT IN INDONESIA, constructed by PowerChina, stands as a national milestone in Indonesia's transition toward clean ...

In West Java, Indonesia, the Cirata Reservoir is home to a groundbreaking initiative in renewable energy, the Cirata Floating Photovoltaics (FPV) Project, developed by PowerChina.

Its advanced technologies could support Indonesia's ambition to produce large-scale solar power generation facilities. However, experts also emphasised the need to develop local ...

In West Java, a province just east of Jakarta, Indonesia, a sprawling industrial park is rising. Backed by Chinese cement giant Hongshi Holding Group, the \$5 billion complex promises to ...
