---

The system has two operating modes: grid-connected and independent.

Grid connected cabinets can connect energy storage systems (such as lithium-ion battery energy storage) to the power grid, achieving charging and discharging control of the energy storage system.

- o Supports grid-connected and off-grid switching.
- o Supports black start and backup power for critical loads.
- o Supports parallel expansion for dynamic capacity increase.
- o C5-level corrosion resistance, ...

BESS (Battery Energy Storage Systems) Boost energy storage with Industrial/Commercial & Home BESS, powered by lithium batteries. Ensure grid stability, savings, & backups. Plus, power base ...

It is connected in series between the grid-connected inverter and the energy storage cabinet. The product has a series of protections, including energy meter, undervoltage tripping, low grid voltage, ...

BSLBATT ESS-GRID Cabinet Series is an industrial and commercial energy storage system available in capacities of 200kWh, 215kWh, 225kWh, and 245kWh. It offers peak shaving, energy backup, ...

The company has mature experience and system design integration capabilities in the fields of carbon materials, monomers, modules, energy storage systems, energy storage safety and fire protection, ...

Whether you're seeking off-grid independence or grid-connected benefits, we provide reliable Energy Storage Solutions that ensure performance, safety, and long-term sustainability..
