Who is base communications?

Base Communications is one of the UK's leading telecoms providers for business, providing cost-effective solutions with unrivalled customer service and aftersales service for your business. Base Communications Ltd works directly with the UK's mobile phone networks to provide you not only excellent savings, but an excellent service to go with it.

What is a communication base station?

Communication base station setups will usually include a wide array of different technologies, including power supplies, data servers, head end, radio repeaters, and communication systems that allow for high-speed continuous information flow. It can also be used as part of a leaky feeder system in the communication network.

Why do you need a telecommunications tower maintenance service?

Routine maintenance is key to prolonging tower longevity and uncovering issues that may complicate compliance and functionality. ANS provides complete communication tower and cell site preventative maintenance services.
