---

**Modular Design:** Scalable from 215kWh to 2MWh to meet varying energy storage needs. **Flexible Configurations:** Allows for easy adjustment of storage capacity by adding or removing battery modules.

The HJ-ESS-DESL series BESS container with a capacity of 372 - 1860 kWh utilizes advanced liquid-cooling technology to maintain the best temperature for all the battery modules. These liquid-cooled ...

Our advanced battery storage containerized system incorporates cutting-edge battery and inverter technology, providing reliable power storage for various applications.

Energy capacity is the total amount of electricity that a BESS container can store and later discharge. It is measured in kilowatt-hours (kWh) or megawatt-hours (MWh). This value reflects ...

A BESS container's capacity typically ranges from 250 kWh to over 3.5 MWh, depending on whether a 20ft or 40ft container is used, as well as battery chemistry, rack layout, and cooling ...

The HJ-ESS-DESL series BESS container with a capacity of 372 - 1860 kWh ...

The 1000kW / 2150kWh Containerized Energy Storage System is a highly scalable and adaptable energy storage solution for various off-grid and grid applications with demonstrated reliability, ...

Equipped with advanced LFP280Ah cells and a robust 832V battery system, it delivers 125KW output power and 232.9kWh capacity. The system supports up to 10 units in parallel, offering easy ...
