The financing will upgrade and expand SPEL's Upolu Solar Farm--Samoa's first independent power producer (IPP)--by installing high-efficiency solar panels. The expansion is ...

The solar farm expansion is closely aligned with Samoa's climate commitments. The country has pledged to reduce greenhouse gas emissions by 26% by 2030, while targeting 70% ...

Samoa is enhancing its main solar farm with a USD 2.8 million loan from the Asian Development Bank (ADB), increasing capacity from 4.2 MW to 6 MW using high-efficiency bifacial ...

ADB has signed a transaction advisory services agreement with Samoa's Electric Power Corporation (EPC) to support the development of a solar photovoltaic and battery energy storage ...

The initiative will involve the expansion of solar farms, battery storage systems, and energy efficiency programs to support domestic and commercial energy needs. Samoa currently ...

The country has signed off on a multi-million dollar loan deal to expand solar power across its two main islands, Upolu and Savai'i. It comes after a rough year.

The Asian Development Bank (ADB) and Sun Pacific Energy Ltd (SPEL) have signed a \$2.8 million (approximately AU\$4.3 million) loan to expand renewable energy generation in Samoa.

South Pacific Island efforts to reduce dependence on costly and polluting diesel fuel continue, with the installation of 546kW of solar PV across the islands of Samoa - the independent state's largest solar ...
