Fully integrated system with battery management (BMS), fire suppression (FSS), thermal management (TMS), and auxiliary distribution systems in a 20-foot container.

This guide explores cutting-edge energy storage technologies, their applications across industries, and why businesses are choosing innovative solutions like those offered by EK SOLAR to future-proof ...

C& S Pack provides advanced lithium-ion energy storage systems for power generation, transmission, and consumption. Our solutions integrate seamlessly with renewable energy like wind and solar, ...

Long life and safety: Vertical industry integration ensures more than 8500 cycles with 80% DoD. Safe Lithium iron phosphate battery cell. Intelligent: Each battery with independent BMS system manages ...

Insulated containers: safe and secure access with active thermal management to optimize battery life and offer a work-friendly operating environment. Proven Battery Management System (BMS): ...

We offer energy storage solutions, including battery modules, portable power supplies, and systems for residential, commercial, industrial, and utility-scale applications. Our products provide efficient, ...

We customize the Battery Management System (BMS) that comes with the lithium battery system. This ensures the safe operation of the battery in different usage scenarios.

EK Solar Energy provides efficient and reliable energy storage battery solutions designed for homes and businesses, offering intelligent energy management to ensure efficient energy use.
