What is a smart EPC contract?

The Smart EPC contract documentation is focused on two core subjects: energy performance and guaranteed energy savings. The additional energy and non-energy services are categorized as either commercial or non-commercial services. The former can be financed by charging for the services to third parties or the general public on a commercial basis.

What is the standardised smart EPC tender documentation?

In addition to the draft of the standardised Smart EPC contract documentation, the project has also developed a draft of the standardised Smart EPC tender documentation. This draft serves as a guideline document for clients when preparing official tender documentation, offering insights on how to specify certain requirements.

How much battery storage will Europe need by 2030?

According to the European Energy Storage Association, 200 GW of storage will be required across the EU by 2030, implying annual deployment of at least 14 GW. In France, the multiannual energy program #3 (PPE 3), which is expected to be published soon, foresees a significant increase in battery storage.

What is the standardised smart EPC concept documentation?

The standardised Smart EPC concept documentation is relevant for inventory data collection and analysis of the public lighting system. Check out all the tools to help you prepare energy performance contracting projects!

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage into regional ...

This energy storage technical specification template is intended to provide a common reference guideline for different stakeholders involved in the development or deployment of energy ...

See how CESC delivered a mobile, EU-compliant containerized storage system for rapid deployment.

BESS Container for Emergency delivers--1-hour setup, 72+ hrs of solar-backed power, IP67 waterproofing, and EU CPM compliance. Plus, score EUR1.2B in funding & partner with Maxbo Solar ...
