How many EV charging stations are there in Africa?

The PlugShare application lists 500 EV charging stations in Africa, out of which 61 % are situated in South Africa . Ghana, Nigeria, and Uganda all possess three charging stations, whereas Mauritius has six . Compared to other regions, SSA lags far behind in EV charging infrastructure.

Does the EPA test EV range?

The EPA provides range estimates for every electric vehicle, but they don't test EV range in the real world -- and Edmunds does. Read all the latest real-world EV test results from the Edmunds experts.

Is sub-Saharan Africa ready for EV adoption?

The electric vehicle (EV) revolution is sweeping the world, and Sub-Saharan Africa (SSA) is no exception. SSA faces unique obstacles to wider scale EV adoption, including the absence of clear policies, high purchase prices, inadequate infrastructure.

What is the Edmunds EV range test?

We created the Edmunds EV Range Test as a way to compare estimates from the EPA and manufacturers with the results of actual driving in the real world. As with our instrumented track testing, we aim to be as thorough and consistent as possible in conducting the Edmunds EV Range Test.
