We provide solutions such as open-frame gas generator sets, containerized gas generator sets, and silent gas generator sets. The power range of gas-powered products is 5kW-2000kW.

Generating sets have modern, low fuel consumption optimized CAT C175-16 diesel engines running in 1500 rpm and having standby electric capacity of 2400kW and 2000kW in continues operation.

Engine power available up to 2400 ft. altitude and 77oF ambient temperature at the Standby rating, without derating. For operation at higher altitudes and ambient temperatures, the power should be ...

Recently, FuDianKang successfully completed the packing and shipment of three high-power Cummins 2000kW diesel generator sets. These units are now en route to support a major ...

Built with a modular containerized structure, it integrates advanced soundproofing technology, ventilation optimization, and anti-vibration design to ensure stable operation even under harsh working ...

In case of an emergency, our mtu Series 2000 generator sets will provide their full electrical power within a few seconds - synchronized to the grid, to another power source or to other ...

The container equipped with the Huaquan 2000kW high-power generator set is specially designed for the unit. The scientific noise reduction design and ventilation design make the operation ...

Our line of containerized generators is easily configurable to the needs of any application, from rental to disaster relief to mining -- with a whole host of value-added standard features, options and ...
