State-owned utility and power generator Eesti Energia has completed and put into commercial operation the first large-scale BESS in Estonia.

Actually, Estonia's grid isn't just aging; it's fundamentally mismatched for decentralized renewables. The Tallinn project's real innovation lies in its modular BESS (Battery Energy Storage System) design ...

Estonian energy company Eesti Energia has inaugurated the nation's largest battery energy storage system (BESS) facility at the Auvere industrial complex in Ida-Viru County, the ...

Estonia's state-owned energy company, Eesti Energia, has officially launched the country's largest battery energy storage system at the Auvere industrial complex in Ida-Viru County. The 26.5 ...

KIISA, ESTONIA - February 3, 2026 - The Baltic Storage Platform (BSP) - a joint venture between Baltics leading renewable energy developer Evecon, French independent solar power ...

Following the completion of the procurement process, it has been confirmed that LG Energy Solution will supply the batteries for the 26.5MW/51MWh project. The battery energy storage ...

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia.

It will come online at the start of 2025, when Estonia and the other Baltic countries Lithuania and Latvia will disconnect from Russia's grid. The complex is located close to the border ...
