What happened to Guyana telecom monopoly?

The end of the 31-year monopoly held by the fixed-line incumbent Guyana Telephone and Telegraph (GTT) occurred just two months after the PPP took power from the APNU+AFC coalition, which had signed a non-binding agreement with GTT in 2019 to liberalise Guyana's telecoms market but failed to take any concrete action to make it happen.

How do I choose a telecommunications enclosure?

Proper installation of telecommunications enclosures is essential to their performance and longevity. Select an appropriate site that meets environmental and logistical needs, whether indoors or outdoors.

Why do telecommunications enclosures need to be installed properly?

As previously mentioned, the materials determine the longevity and durability of the enclosure by providing safety from environmental factors and security from theft. Proper installation of telecommunications enclosures is essential to their performance and longevity.

This has resulted in large infrastructural projects being awarded to the lowest bidder, such as the replacement of its 2-kilometer floating bridge. However, there is a push for higher ...
