Guangte Electrical provided the project with grid-forming energy storage converter and booster integrated machine, empowering green energy development with innovative technology and ...

Serving the Dual Carbon Strategy, Building a Zero-Carbon Society Together | Guangte New Energy Shines at the 2024 International Zero-Carbon Cities, Villages, and Buildings Conference and ...

Integrated Energy Storage Cabinet (Including BMS Management System) New Energy Vehicle DC Charging Pile Solar Power Generation System Integration Solar Panel

Guangte New Energy pioneers innovative solutions with its super nickel batteries and energy-saving systems. Together, we provide integrated, high-quality services tailored to diverse client needs.

This innovative project is designed to leverage rural resource endowments and serve as a key driver in advancing the national rural revitalization strategy. The project operates on a three-dimensional ...

Consisting of photovoltaic panels and inverters, it converts direct current (DC) into alternating current (AC) for powering loads or feeding into the grid.

Hanzhuo Energy Technology Co., Ltd. Specializing in new energy (photovoltaic, wind power, energy storage, etc.) investment, construction, and operation.

Guangte Electric celebrates the successful grid-connection of the 4.6MW distributed solar project for Foshan Yuegou. As the EPC contractor, we delivered an end-to-end rooftop PV solution, driving ...
