"Big Battery made converting our 48v lead acid EZGO cart to lithium a breeze. Our cart is lighter, faster and the range went up dramatically using just a single Falcon Elite battery.

The Duracell High Power Lithium CR123A 3 Volt batteries are designed to provide reliable power to specialty devices like home safety and security devices, high-intensity flashlights, home automation, ...

High voltage battery is a type of battery that is designed to deliver higher voltage output compared to regular batteries (400v - 800v). It is commonly used in electric and hybrid vehicles, as well as in ...

Choosing the right high-capacity lithium battery involves several essential factors, especially since different battery types cater to various needs. You'll find non-rechargeable options ...

MaxAmps lithium battery packs are assembled in the USA with factory fresh lithium battery cells. Our lithium battery packs work best in high performance applications including UAV, drones, and robotics.

Voltaplex is proud to design and manufacture high-voltage battery packs for energy-intensive applications. We build each pack to meet the performance and safety requirements of commercial, ...

High-power lithium-ion battery packs are defined by their ability to deliver sustained high current output with low internal resistance. Key features include robust Battery Management ...

Explore our portfolio of highly engineered battery packs to see if we have a standard, proprietary solution that meets your system requirements. Contact us for a custom quote, if you need something more ...
