Ever wish your air conditioner could moonlight as a energy-saving superhero? Enter Hisense's energy storage air conditioner - a game-changer that's redefining how we cool our spaces ...

Hisense air conditioners with heat mode offer an efficient solution for heating your space during colder months. Heat mode allows these units to reverse the cooling process and warm indoor air, providing ...

Provide a household energy storage system solution with convenient installation. In the four major operator systems including China Mobile, China Unicom, China Telecom, and China Tower, the ...

Hisense inverter systems run smooth and steady, cutting energy use and keeping temperatures consistent. No spikes, no noise--just reliable comfort that lasts. Hisense builds every unit to meet ...

The system includes ERV/HRV on/off control interlocked to the fan, clear temperature visibility and controls, compressor protection, OTA upgrades, and supports up to 4 heating and 2 cooling stages ...

In one Hi-Therma system, the temperature of up to 7 rooms can be independently controlled through installing temperature sensors or room-thermostats in the rooms, satisfying the diverse needs of users.

Meet Hisense Energy Pro X split Air Conditioner, featuring Smart Eye and Follow/Avoid Mode to intelligently control temperature, humidity, wind speed and directions.

This level of control enhances comfort, optimizes energy use, and reduces the likelihood of human error (such as forgetting to turn off heat mode when leaving).
