Can a 5kw inverter be used with a 6.6kw Solar System?

For example, a 5kW inverter is suitable for use with a 6.6kW solar system. There are system losses as solar panels convert sunlight to electricity. It allows for the use of lower-rated inverters. Make sure that the inverter you buy has a long enough warranty.

Which solar inverter should I buy?

Always buy an inverter that can handle the amount of power your panels are likely to produce. Sometimes, a lower-rated inverter is used with a larger solar system. For example, a 5kW inverter is suitable for use with a 6.6kW solar system. There are system losses as solar panels convert sunlight to electricity.
