Hi, I am just looking for some insight into how bubble deal with List fields, so I can understand how it might impact on speed. If I have a list field in my DB, and my form is based on that ...

Hey guys, So one of our carriers has requested the IP address for our app so they can whitelist the app on their SFTP server. How do we do this in bubble? (access that ip?) Is this even ...

To achieve what I was looking for, I had to change the table data source to be a data type and then enable auto-binding on each field I want to input into the database. I was originally sourcing ...

Hi all, A few Bubble users have reached out to us with questions about GDPR, which is the upcoming privacy and data protection legislation that is coming into effect in the European Union ...

Hi We've spent quite a bit of time figuring out how to create an iFrame embedded widget using bubble. You can use iframes for all kinds of usecases like calculators, chat bubbles, review ...

As an important part of the PV panel, the backside protects the cells, but there are some common problems during production and later use. Below is a list of common problems with PV ...

Welcome to the Bubble Forum! This is a space dedicated for you to interact and engage with fellow users. Use this forum to ask questions about our product, share your ideas, discuss app ...

Bubbles formation observed only in fingers of the PV cells. Shape and a location rarely observed for these bubbles. Bubbles formation, chalking and browning are linked by a single ...
