How safe is a bank locker for storing gold?

1. Bank Safe Deposit Lockers Bank lockers are highly secure for storing physical gold. The vaults provided by banks like SBI, HDFC, ICICI, etc. assure that access is limited, eliminating the threat of theft. These vaults are available by paying a nominal charge, ranging from Rs. 1000 to Rs. 12000 annually.

Why should you choose a bank gold locker?

This ensures that the documents and gold kept in the bank locker are heavily guarded. A downside of opting for a bank gold locker is that the bank undertakes no liability for any loss in case of theft, floods, fire, earthquakes, war, or other incidents that are beyond the control of the bank.

How do gold lockers work?

Gold lockers can be operated only with a combination of keys. A private key is given to the owners and another is given to an employee designated for locker operation. This ensures that the documents and gold kept in the bank locker are heavily guarded.

Why should I reserve my physical gold in a bank locker?

When you reserve your physical gold in a bank locker, the bank protects the rare occasion of potential theft through an insurance policy. In case your valuables are stolen, you will be reimbursed by an amount equalling the total value of your physical gold by the bank
