In the worst cases, homeowners have been left making payments on overpriced systems that don't work, with little to no support from the installation company that put the panels on their roof. To avoid ...

In August 2024, the Consumer Financial Protection Bureau issued a nationwide alert about solar panel financing fraud, noting that improper business practices can add as much as 30% ...

No information about the cost to remove or transfer solar panels, which could lead you to believe you have future options that might not be available or affordable

While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading claim.

That's why we put together these tips to avoid getting ripped off when buying solar panels -- backed by expert advice. Here's how to dodge solar panel scams and identify red flags.

For example, if you take out a loan for your solar panels, depending on interest rates, your monthly payments should be close to or below the electric bills you were paying. Then, once ...

Solar scams can cost you thousands of dollars. You can avoid these nefarious solar cons with this helpful guide to what to look out for.

What actually happens: The scammers either make off with your deposit or they install the panels but never produce the rebate. Also, the panels often aren't as efficient as they claim.
