What should I do if I don't use the EPS power unit?

If you do not intend to use the EPS Power Unit for a prolonged period of time, it must be switched off and kept in a safe place. We also recommend checking the battery charge level and fully charging the battery approximately once every six months. Battery lifetime depends on a number of different factors, such as usage and storage conditions.

How do I dispose of my EPs battery charger?

Please contact a Campagnolo Service Centre or Campagnolo Pro-Shop for information on how to correctly dispose of your EPS battery charger. Although the system has an IP67 water resistance rating, washing the bicycle with pressurised water or with harsh detergents is not recommended.

What should I do if my EPs battery charger is not working?

Always disconnect the EPS battery charger from the mains socket when not in use. If the unit is malfunctioning, do not attempt to open or repair it in any way and contact a Campagnolo Service Centre or Pro-shop. Keep the EPS battery charger out of the reach of children and animals.

Can I open the EPs battery charger?

Since it does not contain any user-serviceable parts, do not open the EPS battery charger for any reason. The EPS battery charger may only be used indoors and must not be exposed to rain or humidity. The EPS battery charger should only be used to charge the battery pack for the Campagnolo EPS Power Unit. **WARNING!**

When the COVID-19 pandemic resolves and the bicycle industry gets back to production, I am planning on building up my first EPS bike after many decades of using Campagnolo mechanical ...

The screw to the battery tray falling out is not uncommon. It has happened to me twice. Holosun even mentions this in the manual and recommends you Loctite the screw whenever you ...

If you do not intend to use the EPS Power Unit for a prolonged period of time, it must be switched off and kept in a safe place. We also recommend checking the battery charge level and fully charging the ...

To maintain the battery in your Holosun EPS Carry, regularly check the battery level, clean the contact points, store the device properly, and replace the battery as needed.
