Is unplugging them from the wall or pulling the power cable out of the unit the only way to do that? It's a machine with moving parts, so yes, you definitely want to power them down when not ...

I was killing base stations, 3 in less than 2 months, 2 more in the previous year. I suspect from unplugging them to power down. I now put them to sleep using the phone app.

If you need the base station to completely shut down, please unplug the power cord of the base station. Reminder: It is not recommended to power off during daily use.

When I click quit Steam VR and the headset is off, the base stations continue to stay on. How can I turn them off without unplugging the power...

You either have to keep the Index connected or buy some Remote power sockets to turn off the Base Stations manually via remote. Steam highly recommends not doing this for some reason ...

I mean, there's a menu under Base Station Settings -> Power Management to control them turning off. My issue is I have 3 base stations and a large 2-room setup for my PC vs living room, so I ...

The bluetooth system in SteamVR connects through Vive's proprietary bluetooth system via the headset to turn them on and off. If you have a look on your phone's app store, you'll find an app that lets you ...

There is an iOS app called BS companion that allows you to turn the base stations on and off individually or all together.
