Battery Energy Storage Systems (BESS) make it possible to store solar and wind power and use it when it is needed most. With increasing government support and clear targets, India's BESS ...

ENGIE has been awarded its first hybrid project in India, combining 200 MW of solar PV with 100 MW / 600 MWh of battery storage. This project will enable the storage and supply of up to 6 ...

Graph 1 shows the journey of solar PV plus BESS development in India, highlighting why 2024 has witnessed a rise of this combination of technologies in India's battery storage journey.

The award forms part of SECI's tariff-based competitive bidding process for a larger 1,200 MW renewable energy project with 600 MW / 3,600 MWh of energy storage. NLC India Renewables ...

The Solar Energy Corp. of India (SECI) has concluded its tender for the development of 1.2 GW of renewable energy projects coupled with energy storage systems (ESS), designed to ...

ET Highlights: India looks at upward revision of renewable capacity target, EU installs record 27 GWh of battery storage capacity Energy Transition Highlights: Our editors and analysts bring ...

ENGIE, a global leader in low-carbon energy and services, has secured a hybrid Solar PV and Battery Energy Storage System (BESS) project in India through a competitive bidding ...

Explore the largest BESS projects in India in 2025, including NTPC's 4,000 MWh Thermal BESS, ReNew Andhra Pradesh Hybrid BESS, and JSW Energy's Kerala and Rajasthan storage projects.
