The Integrated Energy Storage Power Cabinet is a compact, all-in-one solution that combines power distribution, energy storage, and intelligent control systems within a weatherproof enclosure.

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO<sub>4</sub>) batteries with scalable capacities, supporting on ...

HuiJue's Base Station Energy Cabinet integrates mechanical protection, intelligent power distribution, and environmental control into one compact enclosure.

This product supports power output of 30KW~90KW, and the system capacity is 100KWH-300KWH. It supports parallel connection of multiple machines and can be flexibly expanded.

The energy storage cabinet has a long lifespan of 10 years, protective class reaches IP54, with a forced air cooling method, over 6000 cycle times at 80% DOD, 25%.

The CX-CI001 lithium battery energy storage cabinet can be customized for on-grid/off-grid operation mode, provides UPS functions, and can be flexibly expanded.

IP54 protection, transformer isolation, intelligent air cooling, and reliable operation from -25°C to 60°C.

SLENERGY provides advanced energy storage cabinets with intelligent control, high safety, and long-term performance for commercial and industrial power applications.
