Housed in a weather-resistant IP55 cabinet, it combines a 100kWh LiFePO4 battery pack with 50kW charge/discharge capability, supporting real-time monitoring and remote control via Ethernet, RS485, ...

Galvanized steel plate 19-inch rack with IP55 protection rating, designed for industrial and commercial energy storage applications. CE certified system with 500W cooling capacity, ideal for ...

Constructed from high-strength steel or stainless steel, it offers excellent waterproof, dustproof, and corrosion-resistant performance with IP55 protection. The interior 19" standard rack allows flexible ...

This energy storage cabinet boasts an advanced All-in-One integrated technology, seamlessly combining PCs, inverters, Battery Management System (BMS), and Energy Management System ...

Compact all-in-one cabinet integrating energy storage, power, and battery modules. Ideal for reliable, space-saving energy solutions in tough environments.

Outdoor Enclosures Material Options: Cold Steel, galvanized steel, stainless steel or aluminum steel available.
Outdoor Telecom Cabinet Cooling options: such as cooling fans, air conditioner or heat ...

By seamlessly integrating leading brands hybrid inverters into the IP55-protected battery cabinet, a compact, easy-to-install, and high-performance turnkey energy storage system is achieved. This ...

Wenergy provides fully integrated, outdoor-rated ESS cabinets using LiFePO4 technology with modular design and robust safety architecture. Our solutions are engineered for long-term operation, scalable ...
