Cooperate with solar panels to form an energy-saving and green photovoltaic storage system, making it easier to build an independent energy storage system for residential and commercial use.

They transform solar-sourced DC into AC and store unused energy in high-performance battery packs, providing clean, renewable backup energy to mission-critical telecom equipment.

Through the combination of advanced LiFePO₄ batteries with smart battery management and compact design, it offers safe, reliable, and scalable energy backup for mission-critical applications.

Huijue's Energy Cabinet for industrial, commercial & home use. Combining efficiency, safety, and scalability, it meets your power needs with optimized usage and real-time monitoring.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

The cabinet body is made of Baosteel high-quality steel plate; the materials, fasteners, seals, mechanical, chemical, and electrical properties used are all in line with Chinese national standards, ...

DC Cabinet is an advanced liquid-cooled outdoor energy storage cabinet designed to support 200+ kW applications with rapid deployment and a minimal footprint, renowned as its integrated safety features.

Built with high-quality LiFePO₄ battery technology and featuring robust safety certifications, our C& I cabinets offer a dependable and low-maintenance path toward energy independence and sustainability.
