The short answer is no - legitimate community solar programs operate as regulated utilities or energy service companies, fundamentally different from pyramid schemes" unsustainable ...

Selling solar is not a Ponzi scheme -- it is a legitimate and rapidly growing industry based on real products (solar panels, inverters, batteries) that deliver real value: clean, renewable energy.

Some customers say they were victims of fraud and forgery. This threatens rooftop solar's impressive momentum. Now, some solar companies are working to repair the industry's ...

Are free solar panels really free? Or are companies like Momentum Solar just highly funded scams? It turns out, maybe a little bit of both.

The presence of a legitimate product (solar panel installations) and verifiable results for many customers clearly distinguishes it from fraudulent pyramid schemes.

This blog post delves into the story of how Jeff, with a troubled past, created a Ponzi scheme disguised as a legitimate business selling mobile solar generators.

People searching online for solar providers often stumble upon an unexpected question: is Momentum Solar a pyramid scheme? This question keeps popping up in online discussions where ...

Community solar subscribers seek energy cost savings, while pyramid scheme participants seek recruitment commissions. While community solar itself is a legitimate, regulated ...
