Kosovo has taken a significant step towards a sustainable energy future by granting its first-ever licenses for battery energy storage systems.

Kosovo's 300+ sunny days annually make battery storage the perfect dance partner for solar energy. The Pristina Solar Farm now stores enough juice to power 15,000 homes through the ...

Remember that factory in Mitrovica that nearly closed last year? They installed a 2.4 MWh battery system paired with rooftop solar. Now they're selling excess power back to the grid during price ...

Lithium battery energy storage is more than a trend--it's Kosovo's pathway to energy independence. From cutting costs to boosting renewable adoption, these systems are reshaping how the nation ...

The government of Kosovo this week announced it will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the country's energy crisis.

Discover how Kosovo's groundbreaking energy storage project is revolutionizing renewable energy adoption while addressing grid stability challenges.

A subsidiary of German energy giant E.ON, EcoVolt's piloting Kosovo's first grid-scale flow battery installation near Gjakova. The 5MW/20MWh system could power 8,000 homes during outages.

Battery energy storage system (BESS) has been applied extensively to provide grid services such as frequency regulation, voltage support, energy arbitrage, etc. Advanced control and optimization ...
