Empower your off-grid projects and grid-support applications with a reliable outdoor battery storage cabinet from TOPBAND. Engineered for harsh climates and demanding workloads, our outdoor ...

It supports remote upgrades, arbitrary parallel combinations, and has IP54 ruggedness. Perfect for large solar farms, industrial microgrids, or critical infrastructure, it maximizes the use of renewable energy, ...

Available in both 100kWh and 215kWh capacities, this modular system integrates power modules, batteries, cooling, fire protection, and environment monitoring in a compact outdoor cabinet.

Ideal for small to mid-sized commercial, industrial, or community projects requiring reliable energy storage. Seamlessly integrate with existing solar inverters, generators, or grid connections without ...

50kW/100kWh outdoor cabinet ESS solution (KAC50DP-BC100DE) is designed for small to medium size of C& I energy storage and microgrid applications. Individual pricing for large scale projects and ...

Application: frequency regulation, voltage support, renewable energy integration, peak load shifting, microgrid and backup power supply. Charging/discharging rate: 1C, 0.5C, etc.

Perfect solution for remote, indigenous, and isolated communities as well as disadvantaged community microgrid and nanogrid projects. Drop-in, pre-packaged and easy to implement at low cost with ...

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.
