What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

What is an outdoor telecom enclosure?

Our outdoor telecom enclosures support a wide range of telecommunications and infrastructure needs: Fiber Optic Networks: From compact fiber distribution units to high-capacity data center enclosures like the AP-Data with six slack frames, our cabinets manage dark-fiber volumes with organized cable management and secure slack storage.

Where are outdoor Telecom enclosures made?

Every outdoor telecom enclosure we manufacture is designed, fabricated, and assembled entirely in the USA. Our commitment to American manufacturing means you receive consistent quality, faster lead times, and complete Build America, Buy America (BABA) self-certification documentation with every order.

What materials are used for outdoor enclosures & cabinets?

Explore Waterproof & Weatherproof NEMA-Rated Outdoor Enclosures and Cabinets with AZE! Durable Materials: Choose from galvanized steel, stainless steel, or aluminum for superior corrosion resistance and longevity.
