How can state policies help grow solar energy?

Many policies that advance the growth of solar energy are established at the state level. This can include state tax incentives for solar, which provide an additional tax benefit on top of the federal ITC. Other state policies, discussed below, can include:

How many GW of solar PV will be installed in 2030?

Continuous support for all PV segments will be needed for annual solar PV capacity additions to increase to about 900 GW, in order to reach 6 700 GW of total installed capacity in 2030 envisaged in the NZE Scenario. Distributed and utility-scale PV need to be developed in parallel, depending on each country's potential and needs.

How does policy support affect solar PV deployment?

Policy support remains a principal driver of solar PV deployment in the majority of the world. Various types of policy are behind the capacity growth, including auctions, feed-in tariffs, net-metering and contracts for difference.

Will new policies and targets drive solar PV investment in 2022?

New policies and targets proposed in the REPowerEU Plan and The Green Deal Industrial Plan are expected to be important drivers of solar PV investment in the coming years. The United States included generous new funding for solar PV in the Inflation Reduction Act (IRA) introduced in 2022.

He is the latest Dutchman to lead Indonesia's FIFA World Cup(TM) 26 qualifying bid, joining new head coach Kluivert and assistants Alex Pastoor and Denny Landzaat.

At the federal level, there are several key policies, programs, and regulations that impact the development of solar PV and other renewable energy projects, influencing project procurement ...

PV Tech reported yesterday that the US added almost 18GW of solar PV in the first half of 2025, and the Energy Information Administration (EIA) has forecast that the country will see almost...

FIFA relives the tournaments which thrilled fans worldwide and celebrates the triumphant teams and players.

SEIA is engaged with policymakers at the regulatory and legislative levels in Washington, D.C. and across the country to establish supportive policy frameworks that allow solar to compete in the ...
