Built for endurance, it boasts an impressive cycle life of up to 8,000 cycles, ...

Looking for high-quality Lithium Iron Phosphate (LiFePO₄) battery cells for your next DIY project? These automotive-grade cells from a reputable manufacturer offer exceptional performance, safety, and ...

Winston are one of the first manufacturers of large format LiFePO₄ cells, and are one of the most popular lithium battery solutions for EV builders around the world.

GBS is a respected, high quality LiFePO₄ cell manufacturer with a relatively long history. These batteries come ready assembled in to 4 cell 12.8V modular packs.

Stepping up the capacity from their 18650 cousins, these 26650 Lithium iron phosphate (LiFePO₄) batteries, are a more chemically stable type of lithium rechargeable cell.

Buy 3.2V 280Ah lithium battery cells for solar, EVs, and energy storage. High-capacity, long life, and reliable. Available for retail & wholesale orders!

This rechargeable 26650 LiFePO₄ Battery Cell has a nominal capacity of 3000mAh and 3.2V voltage. It is safe and economical with excellent discharge characteristics and long cycle life.

At LiFePO₄ Australia, we don't just sell batteries; we source and recommend the world's best-performing energy hardware. From our own LiFePro cells to Tier-1 systems like Sigenergy, Deye, and Goodwe, ...
