BMS with SMBus/RS485/RS232 Communication for 4S Lithium/LiFePO4 Battery Pack at 60A rate

Using a System Management Bus (SMBus) compatible charger and gauge can reduce the cost and complexity of a simple Battery Management System (BMS).

These smart battery packs are able to communicate via SMBus (SMART standard) / I 2 C and feature Lithium-Ion technology for medical, military, and industrial applications. These ...

This is a high-performance rechargeable Lithium Ion battery with an ...

This is a high-performance rechargeable Lithium Ion battery with an instantaneous start-up. The BB-2590/U with SMbus battery was designed and manufactured according to Military Standards and MIL ...

The majority of our battery configurations are available in hard pack enclosure! Featuring built-in charge indicators, SMbus and accessories such as charging docks.

They may be configured in series, parallel or a mixture of both to deliver the desired voltage, capacity, or power density. Packs are identified by cell size, number of cells, battery structure, chemistry, ...

Check out National Power Corporation's standard SMBUS lithium ion battery models in North America, ensuring quality and reliability for your needs.
