Danish renewables company European Energy has secured EUR37.9 million in financing for a major hybrid solar and energy storage project in Latvia, a landmark move for the nation's green ...

In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, next to the existing wind park.

With 12+ years in renewable energy systems, SunContainer Innovations delivers customized storage solutions for commercial and utility-scale projects. Our Baltic operations center in Riga provides:

Amid the Baltic region's stringent grid stability requirements, Kehua's C& I liquid-cooled S³-EStore systems have been deployed at a Latvian industrial facility, ensuring uninterrupted ...

Clean energy investment company Niam Infrastructure and Estonian renewable power developer Evecon have announced plans to build a new solar-plus-storage portfolio in Latvia.

Latvian power storage manufacturers are reshaping Europe's renewable energy landscape with cutting-edge battery systems and grid stabilization technologies. Discover how these solutions support solar, ...

Latvian engineers have sort of cracked the code on rapid deployment. Their containerized systems can be operational within 48 hours of delivery, compared to the European average of 10 days.

Discover how Latvia's innovative energy storage initiatives are reshaping grid stability and renewable integration. This deep dive explores technical breakthroughs, market trends, and the strategic ...
